Amy Corriveau-Rel.	☒	March 25th - April 7th	JUNIORS: Apparel Design - Students will find a photo of an outfit/garment that they like and they think achieves harmony. They will then tell me what elements and principles of design are featured in the photo. List a brief explanation after the elements and principles that you feel are in the photo. I have included the list below for your reference. Textile Science - Students will watch four YouTube videos about different processes involved in making/using both natural and manufactured textile fibers. They will then comment about what was learned in each of the four videos and will include answers to the following questions: - Is the video about a natural or manufactured fiber? - what you learned in each video - what you thought was interesting - if there were any major similarities/differences among the fibers SENIORS: Fashion Industry/Entrepreneurship - Watch the YouTube video listed in the google doc assignment. List all 15 necessary items for a wardrobe that are discussed in the video. Tell me whether you agree or disagree that the item would be in your wardrobe. If you disagree, what would you substitute it with? I have included a few of my choices in the google doc for a sample to see what I mean. Fashion/Visual Merchandising - Students will design an overhead planogram for your their store. They can use a regular 8.5 x 11 sheet of paper and can hold the paper either horizontal or vertical. Use whatever paper that is available (white lined paper is fine).
