July 2020

CVTE Principal Report…….

The renovation and redesign of the Machine Technology career and technical area is 90% complete. The classrooms have been completely refinished, the floors have been stripped and repainted. The various equipment has also been repositioned to increase efficiency.
The maintenance crew is in the process of building a wall to separate the Machine Technology area from the new Marine Service Technology program. The classrooms and the floors will also be completely refurbished. We are in the process of securing the necessary equipment and supplies to ensure a smooth opening of Marine Service Technology program this upcoming school year.
Around the building our students have assisted in building the maintenance garage which is now weathertight and ready to begin the electrical installation phase. Additionally, our students are cleaning our HVAC system and replacing the filters which will ensure our system adheres to the stringent hospital criteria.
Other news:

- Our new practice fields have had an irrigation system installed and are level.
- Over 100 classrooms have had the floors waxed and received a deep clean.
- The nurse's office is being updated and restructured to address the Covid 19 safety protocols.
- Our FOB system is 75% completed.
- Engineering has begun on our electrical switch gear.
- Partitions have been installed in our restrooms.
- Plexiglass has been ordered and will be installed in various locations.

Greater New Bedford Regional Vocational Technical High School is committed to ensuring equal opportunities for all students. The school does not discriminate on the basis of race, color, national origin, sex, disability, religion, sexual orientation, gender identity, age, homelessness or veteran status in its education programs and activities, including admission to or employment in such programs or activities.
