Dear Parent/Guardian,

In some career and technical programs, placement is a mandatory part of the curriculum. Placement is an unpaid work experience in the student's career and technical area of study. While on placement the student will be under the joint supervision of the manager of the facility, the classroom instructor and the placement facilitator when present. The school provides transportation to and from the placement sites. Placement is considered an extension of school and attendance is critical, as an outside experience, it is unable to be made up. Remember, this is a learning experience for the student and our goal is that the students gain some "real world" experience in their chosen field.

If a student becomes ill at placement, you or a person on your contact list will be required to pick up and transport your son/daughter.

Please review your contacts in the Aspen X2 Parent Portal. You can add additional emergency contacts by filling in a 10A form in guidance. You can also add contacts in X2 for your son/daughter online by visiting the GNBVT website and select the Parents and Student pulldown menu, select Student Links and Resources and select the Student Emergency Contact Form – Form for students about their emergency contacts for Guidance and fill-in the Cognito form.
