"If it were not for SCIL, I would not be where I am right now!"

"I look forward to every third Friday, the social recreation events are soo much fun."

One of SCIL's youth consumers was set up with an internship at Young Angels Day Care. She has been there for some time now even after the internship ended, she continues to volunteer. This opportunity has enabled her to gain experience in the career field she would like to study in college once she graduates. The newfound confidence she has gained from this experience has allowed her to maintain steady employment.
